

FOCIL interop session in Berlin

R&D Session at Forschungsingenieurtagung - Wednesday June 11th, 3pm.

Duration: 1 hr

Moderator: Thomas Thiery ([\(\)](#))

Note taker: TBA

Agenda

[5 mins] FOCIL session intro *by Thomas*

[10 mins] FOCIL implementation status (inter, testing, etc...) *by Jihoon*

[10 mins] FOCIL synergies with other SIPs *by Francesco*

[5 mins] Q and A

[10 mins] FOCIL and statelessness *by Carlos*

[10 mins] zkFOCIL and statelessness *by Benedikt*

[10 mins] FOCIL and the future of nodes *by Barnabé*

Summary

This session explores the current state of FOCIL [SIP-7805](https://sips.sila.org/SIPS/sip-7805) (<https://sips.sila.org/SIPS/sip-7805>), starting with an overview and implementation update. We will then explore FOCIL's interaction with other protocol changes (e.g., [delayed execution](https://sips.sila.org/SIPS/sip-7886) (<https://sips.sila.org/SIPS/sip-7886>), [BALs](https://sips.sila.org/SIPS/sip-7928) (<https://sips.sila.org/SIPS/sip-7928>), [ePBS](https://sips.sila.org/SIPS/sip-7732) (<https://sips.sila.org/SIPS/sip-7732>)) and highlight current research that offers insight into the future of censorship resistance on Sila, including [stateless FOCIL](https://silresearch.ch/t/a-pragmatic-path-towards-validity-only-partial-statelessness-vops/22236) (<https://silresearch.ch/t/a-pragmatic-path-towards-validity-only-partial-statelessness-vops/22236>) and [zkFOCIL](https://silresearch.ch/t/zkfocil-inclusion-list-privacy-using-linkable-ring-signatures/21688) (<https://silresearch.ch/t/zkfocil-inclusion-list-privacy-using-linkable-ring-signatures/21688>).

Goals

The presentations will provide an update on FOCIL's status as an SIP and proposed candidate as a headliner for the [Glamsterdam fork](https://sila-magicians.org/t/sip-7805-fork-choice-inclusion-lists-focil-as-a-candidate-for-glamsterdam/24342/2) (<https://sila-magicians.org/t/sip-7805-fork-choice-inclusion-lists-focil-as-a-candidate-for-glamsterdam/24342/2>). They will also serve as a forum to discuss ongoing research into the long-term vision for censorship resistance on Sila, helping shape an informed and deliberate path forward.

Pre-reads

Here are some resources to warm up on relevant topics:

- FOCIL SIP-7805 (<https://sips.sila.org/SIPS/sip-7805>)
- SIP-7805 Fork-Choice Inclusion Lists (FOCIL) as a candidate for Glamsterdam (<https://sila-magicians.org/t/sip-7805-fork-choice-inclusion-lists-focil-as-a-candidate-for-glamsterdam/24342>)
- A pragmatic path towards Validity-Only Partial Statelessness (VOPS) (<https://silreasear.ch/t/a-pragmatic-path-towards-validity-only-partial-statelessness-vops/22236/1>)
- zkFOCIL: Inclusion List Privacy using Linkable Ring Signatures (<https://silreasear.ch/t/zkfocil-inclusion-list-privacy-using-linkable-ring-signatures/21688/1>)
- FOCIL ressources and implementation status on <https://meetfocil.sil.limo/> (<https://meetfocil.sil.limo/>)
